

Project Design Phase-II

Solution Requirements (Functional & Non-functional)

Date	Oct 2 nd 2026
Team ID	6ab8c330c23107aaaa72e953
Project Name	Import Data using Transform Maps (Spreadsheet)
Maximum Marks	

Functional Requirements:

Following are the functional requirements of the proposed solution.

FR No.	Functional Requirement (Epic)	Sub Requirement (Story / Sub-Task)
FR-1	Spreadsheet Preparation	Create an employee spreadsheetEnter Employee ID, Name, Email, Department, and Location
FR-2	Import Set	Upload the spreadsheet using Import SetsStore data in the Import Set Table
FR-3	Data Validation	Validate employee detailsIdentify missing, invalid, and duplicate data
FR-4	Transform Map	Create a Transform MapConnect the Import Set Table with the Employee Table
FR-5	Field Mapping	Map Employee ID, Name, Email, Department, and Location to the corresponding target fields
FR-6	Data Transformation	Run the Transform MapTransfer employee data to the Employee Table
FR-7	Record Management	Use Employee ID to identify existing recordsInsert new records and update existing records
FR-8	Import Monitoring	View the transformation statusIdentify failed records and errors
FR-9	Data Verification	Verify inserted and updated employee records in the Employee Table
FR-10	Import Summary	Review inserted, updated, and failed records

Non-functional Requirements:

Following are the non-functional requirements of the proposed solution.

NFR No.	Non-Functional Requirement	Description
NFR-1	Usability	The system should provide a simple and easy-to-use process for uploading and transforming employee data.
NFR-2	Security	Employee information should be accessible only to authorized users.
NFR-3	Reliability	The system should accurately import, insert, and update employee records without data loss.
NFR-4	Performance	The system should process and transform employee data within a reasonable time.
NFR-5	Availability	The import and transformation process should be available whenever required by the administrator.
NFR-6	Scalability	The system should support an increasing number of employee records without affecting the import process.
